ABOUT ME

Hi, I'm Andrea, a Front End Software Engineer with a passion for tech and design. I enjoy solving complex problems and coding. I constantly strive to improve my skills and value a strong engineering culture. I build great features and embrace humility and responsibility. Remember, in life, you win and learn!

EMPLOYMENT HISTORY

SOFTWARE ENGINEER (CLOUD), REVEVOL (MILAN, IT)

June 2023 - Present

FULL STACK ENGINEER, LASCAUX SRL (AREZZO, IT)

September 2019 - Present

- Developed diverse web applications for leading banking and precious metals companies in Italy, including complex architectures with up to 15 microservices, as well as smaller monolithic web apps.
- Built and managed Angular libraries, contributing to consistency and efficiency across the company's projects and products.
- Conducted extensive training sessions on Java and REST/SOAP as part of my company's Academy, providing valuable education to graduates.
- Mentored and supported interns, junior developers, and provided guidance on project development strategies across the entire stack of various projects.

EDUCATION

BACHELOR'S IN COMPUTER SCIENCE, UNIPEGASO (ITALY)

April 2023 - Present

- Computer Science, VR, MR & AR Development, Algorithms & Data Structures

TECHNICAL DIPLOMA IN ICT, ITT G. FERRARIS (S. GIOVANNI VALDARNO, ITALY)

September 2014 - July 2019 (Score of 92/100)

- ICT, Programming, Algorithms, Networks, Project Management
- Participated in Italy's Robocup Junior 2018, writing our robot's path finding script on an Arduino

CERTIFICATIONS

C1 Cambridge English Advanced - **Jun 2018**
